

140 Letters of Intent Received for Tools & Technologies RFA

CIRM received 140 letters of intent for the Tools & Technologies RFA on June 11, 2008 – 90 were from non-profit institutions and 50 were from for-profit organizations. Applications are due on July 10, 2008, with anticipated review by the ICOC in December 2008. The CIRM Tools and Technologies Awards will support the development and evaluation of innovative tools and technologies that will overcome current road blocks in basic, translational and/or clinical stem cell research.
